KODAK BATTERIES

KODAK ULTRA DIGITAL ALKALINE BATTERY

- Kodak Ultra Digital Alkaline AA batteries yield approximately 70-100 pictures
- Designed to provide superior power in both digital and general applications
- Good low temperature performance (-20C to 54C)
- Improved formula performs 6% better than Kodak Oxy Alkaline
- 50% better performance than Kodak Max in digital camera testing

520333

520334

Croxley Sku	Description	Size	Voltage	Type
520333	Kodak Ultra Digital Alkaline Batteries	AA – 2 Pack	1.5	Alkaline
520334	Kodak Ultra Digital Alkaline Batteries	AA – 4 Pack	1.5	Alkaline

KODAK ALKALINE BATTERIES

High-drain, continuous or heavy-use applications. Very low internal resistance, sloping discharge characteristics, good storage life and good low-temperature performance (-20°C to 54°C).

Croxley Sku	Description	Size	Voltage	Type
520317	Kodak MAX Alkaline Batteries AAA	AAA – 2 Pack	1.5	Alkaline
520318	Kodak MAX Alkaline Batteries AAA	AAA – 4 Pack	1.5	Alkaline
520320	Kodak MAX Alkaline Batteries AA	AA – 2 Pack	1.5	Alkaline
520322	Kodak MAX Alkaline Batteries AA	AA – 4 Pack	1.5	Alkaline
520661	Kodak MAX Alkaline Batteries C	C – 2 Pack	1.5	Alkaline
520329	Kodak MAX Alkaline Batteries D	D – 2 Pack	1.5	Alkaline
520319	Kodak MAX Alkaline Battery 9V	9V – 1 Pack	9.0	Alkaline

KODAK CARBON ZINC BATTERIES

The all-purpose choice: great performance at a competitive price.

- Excellent value
- Excellent leakage resistance
- Keeps well – retains 80% of original service life capacity after up to 3 years in storage

520298

520299

520300

520297

Croxley Sku	Description	Size	Voltage	Type
520298	Kodak Carbon Zinc Batteries AA	AA – 4 Pack	1.5	Carbon Zinc
520299	Kodak Carbon Zinc Batteries C	C – 2 Pack	1.5	Carbon Zinc
520300	Kodak Carbon Zinc Batteries D	D – 2 Pack	1.5	Carbon Zinc
520297	Kodak Carbon Zinc Battery 9V	9V – 1 Pack	9.0	Carbon Zinc

KODAK RECHARGEABLE NI-MH BATTERIES

- Kodak Ni-MH Rechargeable Digital Camera AAA batteries have long lasting power and can be re-charged up to 500 times
- For use in digital cameras or any other electronic device
- Save up to 2,000 alkaline batteries*

*1vs. Alkaline in a digital camera. Performance may vary by digital camera and consumer usage

520326

520329

Croxley Sku	Description	Size	Voltage	Type
520326	Kodak NI-MH Rechargeable Batteries AAA	AAA – 2 Pack	1.2	Ni-MH
520329	Kodak NI-MH Rechargeable Batteries AA	AA – 2 Pack	1.2	Ni-MH

KODAK PRE-CHARGED NI-MH BATTERIES

- Kodak Ni-MH Pre-charged Digital Camera AA batteries yield up to 300,000 digital pictures over the service life of the batteries. They are ready to use, do not require an initial charge and stay charged up to 4 times longer than ordinary Ni-MH rechargeable batteries
- Batteries yield approximately 300 pictures per charge*
- Re-chargeable up to 1,000 times

*Performance varies by digital camera and consumer usage

520332

520331

Croxley Sku	Description	Size	Voltage	Type
520332	Kodak NI-MH Pre-charged Rechargeable Batteries AA	AA – 4 Pack	1.2	Ni-MH
520331	Kodak NI-MH Batteries Charger (AA/AAA) with 2 NIMH Rechargeable Batteries AA	AA – 2 Pack	1.2	Ni-MH

KODAK LITHIUM BATTERIES

New and improved lithium formulas for faster flash-recycle times.

- Superior performance when tested under severe cold conditions
- Unsurpassed performance
- Welded internal connections for more consistent discharge characteristics
- Long shelf life – retains 90% of original service-life capacity after up to ten years in storage
