Milford Heritage Series – the series is stitch bound to ensure photographs are archival safe. Our quality assurance is supported by a replacement guarantee on the binding and the knowledge that the paper used is both acid and lignin-free.

Milford Classic Series – this series offers an economic and contemporary range that preserves your photographs but still uses acid and lignin-free products.

Coral Coast – this range completes the offer with premium quality design options. With a focus on what makes photographs special Coral Coast summarises “these are the people I love, the places that I remember and the experiences that have shaped my life. These are the memories that will stay with me forever”. All Coral coast albums are archival safe, lignin-free and acid neutral.

Explaining the Terminology

Drymount – drymount albums create an ambience which allows you to place your photographs as a display and for those larger photographs. All drymount albums have glassine interleaves for the best protection of your photographs. Drymount albums require the use of a fixative to secure the photographs in place. We recommend the use of acid-free 3L adhesive products.

Slip-In – slip-in albums are for convenient storage of standard sized photographs. Slip-in albums have pockets for holding the photographs in place and the larger albums have a writing space to the left for noting those special memories.

Acid Free – acids that remain in paper react with photographs over time and can cause degradation of the photo quality. All Milford and Coral Coast albums are acid free. Always use acid-free albums to ensure safe storage of precious memories.

Lignin – lignin is a chemical in trees that is removed before the manufacture of the paper used in our albums. Lignin is an agent that causes the yellowing of photos over time if it remains in the paper. Milford and Coral Coast albums are lignin-free.

Binding – stitch bound means the pages are stitched together and fixed to the spine for durability and archival safe photo storage.

Glassine Interleaf – glassine interleaves ensure a neutral medium between photographs, protecting them from reacting with each other when the album is closed, and ensuring long-lasting memories.

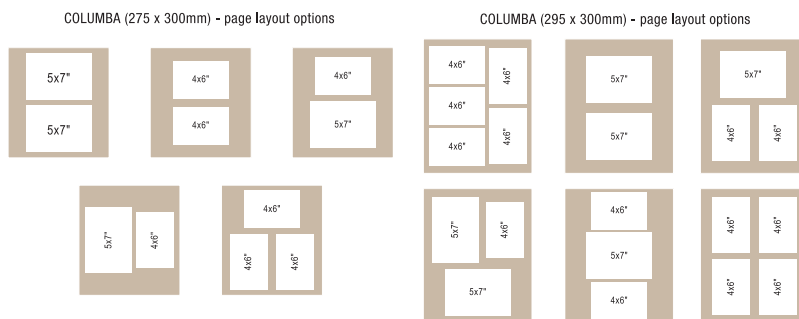

MILFORD HERITAGE SERIES ALBUMS

MILFORD HERITAGE COLUMBA ALBUMS

Columba albums have traditional covers with gold foiling on the spine to create a classic book effect. These albums have white glassine interleaves.

202342 275 x 300mm 70 Black Drymount Pages Red

BR4155 HL7050N

BROTHER HL8050N PRINTER

Network-ready Laser Printer for Corporate use. For a busy workgroup. Speed, efficiency and crisp, professional documents are required, all day, every day. That is why Brother has developed the HL8050N. With the first print arriving in less than nine seconds and a printing speed of up to 34ppm, the HL8050N gives a fast response to the demands of the workgroup. There are two paper trays giving users the option of choosing different paper stock, and a capacity of 700 sheets. This can be expanded by two optional lower trays, to give added versatility and a remarkable 1800 sheet capacity to cover ever-increasing print requirements. A 300MHZ processor means there is no waiting for memory-hungry documents to be processed, so print speed is not compromised.

- Up to 34ppm printing speed
- 1200 x 1200dpi print resolution
- 64MB memory
- Expandable to 320MB
- Up to 700 sheets paper capacity expandable to 1800 sheets
- Windows, Mac, Linux and DOS compatible

BR4171 HL8050N

BROTHER COLOUR LASER PRINTERS

BROTHER HL3040CN PRINTER

Network-ready Colour Laser Printer for Business use. For fast, high resolution colour printing that gives your reports the competitive edge, this compact network-ready colour printer delivers in any business environment, even the home office. The HL3040CN is one of the lowest-cost colour printers to run and by printing 16 pages per minute both colour and monochrome, you can be confident that no other printer can print colour at this price, this quickly. Gain the edge and maintain the edge with a true pioneer in affordable, fast, colour printing.

- Prints up to 16ppm both colour and mono
- Network-ready with a built-in network card
- Hi-Speed USB 2.0 connection
- Up to 2400 x 600dpi print resolution
- 32MB of memory, expandable to 544MB

444431 HL3040CN

BROTHER HL3070CW PRINTER

Network-ready Colour Laser Printer for Business use. This wireless colour workhorse is a time-saver as well as money-saver. Wireless connection means you can do away with needless cable clutter and position this compact, attractive addition to your office wherever you want. You can print from your USB key, which saves time when you need print jobs on the run. Again it's reliable and cost-effective to run, so you can be confident of the best value wireless colour printing available.

- Prints up to 16ppm both colour and mono
- Wireless ready
- Hi-Speed USB 2.0 connection
- 64 MB expandable to 576MB to manage large print jobs
- Up to 2400 x 600dpi print resolution

444432 HL3070CW

BROTHER HL4150CDN PRINTER

Network-ready Colour Laser Printer for Business use. The HL4150CDN offers fast, high-performance and feature-rich colour printing for your desktop or small office. Delivering outstanding print quality, the HL4150CDN makes it easy to produce high-impact colour reports, brochures, and presentations right from your desktop, or, using its built-in front-panel USB Direct Interface, directly from a USB Flash Memory drive. And to keep your running costs low, this printer also features high-capacity replacement toner cartridges.

- Up to 24ppm colour & monochrome printing
- Built-in Duplex (double-sided printing)
- Up to 2,400 x 600dpi resolution (2400dpi class)
- Hi-Speed USB 2.0 & Network 10/100 Base-TX
- 802.1x LAN security for Network Access Control

444478 HL4150CDN

BROTHER HL4570CDW PRINTER

Network-ready Duplex Colour Laser Printer for Corporate use. The HL4570CDW offers fast, high-performance and feature-rich colour printing for your desktop or small office. The HL4570 makes connecting to your network simple with built-in easy-to-set-up wireless and wired networking. Delivering outstanding print quality, impact colour reports, brochures and presentations right from your desktop, or, using its built-in front-panel USB Direct Interface, directly from a USB Flash Memory drive. To keep your running costs low, this printer also features high-capacity replacement toner cartridges.

- Automatic double-sided (duplex) printing
- Both wireless and network capable
- Up to 28ppm both colour and mono

444479 HL4570CDW

BROTHER INKJET MULTIFUNCTIONS

BROTHER DCPJ125 MULTIFUNCTION

Colour Inkjet Printer, Digital Copier, Digital Photo Printer & Scanner. The DCPJ125 compact colour inkjet multifunction gives you professional colour photo prints, copying, printing and scanning all in the one value-for-money unit. With individual ink cartridges, you can reduce your costs by not purchasing a full set of colours. With print speeds of up to 33 pages per minute mono and 27 pages per minute colour, you can be sure of quick, convenient, professional in-house documents every time. You can scan bound and irregular-shaped objects on the hinged flatbed scanner – even scan items to media card or email. So much convenience for very little money.

- Super fine print resolution of up to 6000dpi
- 1.9" LCD display makes it easy to complete tasks
- Print directly from your media card without the need for a PC
- Energy Star certified

444455 DCPJ125

BROTHER MFCJ265W MULTIFUNCTION

Wireless Colour Inkjet Printer, Digital Copier, Digital Photo Printer, Scanner & Fax. The stylish MFCJ265W combines good looks with fast and efficient wireless colour photo printing, colour printing, copying, colour faxing and scanning in a single compact unit. Navigation is simple with the easy-to-use 1.9" LCD display and you can be up and running in minutes with up to 27 colour and 33 mono pages printed per minute. You can preview images before you print and it's easy to fine-tune images before printing with purpose-built software. No more untidy cables.

- Fast 27ppm colour and 33ppm mono printing with 30 second photo print speed
- Cost-effective individual ink cartridges
- Print images directly from memory cards
- Easy to use 1.9" screen LCD
- Energy Star certified

444456 MFCJ265W

BROTHER MFCJ415W MULTIFUNCTION

Network-ready Colour Inkjet Printer, Digital Copier, Digital Photo Printer, Scanner & Fax. The stylish MFCJ415W combines good looks with fast and efficient wireless colour photo printing, colour printing, copying, colour faxing and scanning in a single compact unit. Navigation is simple with the easy-to-use 1.9" LCD display and you can be up and running in minutes with up to 27 colour and 33 mono pages printed per minute. You can preview images before you print and it's easy to fine-tune images before printing with purpose-built software. No more untidy cables – this wireless workhorse is easy and safe to set up with the simple to follow, secure wireless software.

- Fast 27ppm colour and 33ppm mono printing with 30 second photo print speed
- Cost effective individual ink technology
- Easy to use 1.9" screen LCD

BROTHER MFC9120CN MULTIFUNCTION

Network-ready Colour Laser Printer, Copier, Fax & Scanner for Business use. The MFC9120CN offers complete network connectivity for businesses of up to 10 users to enjoy colour printing, faxing, copying and scanning in the one compact unit. It still maintains the fast 16 pages per minute colour and monochrome print speeds but surprisingly is only 7kg heavier than its single function cousins. Again, time-saving technology is to the fore, with a 35-page automatic document feeder so you can fax, scan and copy multiple pages while working on other tasks. Increase productivity, save time and enjoy cost-effective, professional-looking printouts with the compact MFC9120CN.

- Prints up to 16ppm both colour and mono
- Up to 2400 x 600dpi print resolution
- Network-ready with a built-in 10/100 network card
- Scan, copy and fax
- 35 sheet automatic document feeder

444446 MFC9120CN

Like our great Products? We have great Services too!

brother
at your side

What does "at your side" really mean? Read on....

7 DAY LOCAL HELPDESK

Not only is our helpdesk open 7 days a week when you actually need us, we employ locals in our call centre rather than redirect calls off-shore. That way we are investing in our local community and provide you with a contact point that understands the local environment.

WARRANTY UPGRADE WHEN YOU PURCHASE GENUINE BROTHER CONSUMABLES

Purchase any Genuine Brother consumable and receive an upgrade to onsite warranty for the balance of your machine's warranty. So by simply purchasing Brother consumables that are specifically manufactured to get the best out of your Brother, we will send someone to inspect your machine in the event of a problem, rather than you taking it in to a technical service agent.

10-DAY CASHBACK SURE

We guarantee to process your cashback within 10 working days or refund the purchase cost (less cashback amount).

BROTHER 14-DAY CUSTOMER SATISFACTION GUARANTEE

Should you experience any type of product failure with your Brother machine within 14 days of purchase we will ensure the problem is remedied either over the phone, or arrange a service provider to inspect.

BROTHER CREATIVE CENTRE

Brother's Creative Centre gives you professional templates and designs fliers, posters and mailers for your business! For the home, it gives you fun stuff like greeting cards, scrapbook designs and calendars – and it's all free. Visit www.brother.co.nz and click the Creative Centre banner and check out how Brother can make professional home-produced designs easy.

RECYCLING

Brother has the most comprehensive recycling programme of any manufacturer in the country to the extent that we provide FreePost watertight envelopes for you to return used consumables to be recycled. The same service is offered for your end-of-life hardware with a network of "drop-off" points throughout New Zealand. Best of all – it costs you nothing.

Visit www.brother.co.nz for the full list of terms and conditions related to each of the above services.
