BROTHER STAMPRO HARDWARE

Whether you're an established stamp manufacturer, copy shop, express service or stationery supplier or whether you are just setting up your own business, we have a machine that will really make an impression. The Brother Stampcreator PRO creates pre-inked stamps speedily, making it the most margin-friendly machine on the market. This exclusive commercial system creates a major profit centre by turning signatures, graphics, text, clip art, photos and logos into pre-linked stamps. Everyone knows that stamps help people get through practically every job faster and easier, but no one ever plans ahead to buy a stamp. When your customers need one, they need it now. And now you can give it to them while they wait. Create a pre-inked stamp in just 3 minutes. The SC2000 utilizes your existing PC, MAC, fonts, scanner, clip art and digital camera for high quality 600 dpi graphic stamps which have previously been difficult to make with conventional stamp equipment.
