WARWICK

Choose the Warwick Environmental Choice approved range of exercise books.

From humble beginnings to achieving great things...
New Zealanders have grown up with Warwick.

Warwick only uses recycled fibre, waste wood or sustainably managed sources. Better yet, exercise books can be recycled for future generations of Kiwi kids.

Put simply, Warwick is great for kids, affordable and great for New Zealand.

Further information for the ECNZ specification is available at www.environmentalchoice.org.nz Keyword: CROXLEY.

Join us and be part of the solution!

Important environmental news from NZ's trusted stationery brand.

Warwick Environmental Choice approved school exercise books are safely made in New Zealand.

Right now we could detail the entire process we undertook with the ECNZ* to achieve our license (No. 2609064), however we don't have enough space in this communication. So here are some key points about our product.

- Manufactured from 100% recycled fibre, waste wood from harvesting and processing operations, virgin fibre from sustainably managed sources, or a combination of these fibres.
- Only made using virgin fibre from legally harvested sources.
- Made by an organisation which aims to maximise post consumer recycled content, the % of virgin fibre that is FSC (or equivalent) licensed or the % of fibre that is recycled, waste or FSC certified (order of preference) in mixed fibre products.
- Contain no carcinogenic, mutagenic, reprotoxic or ecotoxic dyes, pigments or coatings.
- Does not contain any azo dyes or pigments which release potentially carcinogenic amines.

Warwick is owned by Croxley Ltd.

Our corporate environmental management also includes CEMARS® which is used to measure our greenhouse emissions with ISO 14064-1 and the implementation of management to reduce these emissions.

*ECNZ specification is available at: www.environmentalchoice.org.nz

A New Zealand Standard is in place for Exercise Books and is best known for its product coding system.
